MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with [] on 30 October 1967 25X1

REFERENCE: [] for the Analog/Digital Image Restoration Contracts 25X1

After my brief conversation with [] these salient facts were brought out for consideration. 25X1

1) [] is afraid that if we take the money from a lower priority project and do not get this change in funding approved for use on the Analog/Digital Image Restoration contracts through either [] the PPB may remove this money from our FY68 budget. 25X1

2) If we can assure [] that we are going to obligate all of the money on our current FY68 budget, he will be willing to go to the PPB and ask for additional funding over and above our present approved budget figure. However, if by any chance we do not spend all of our current FY68 budget, he feels that this would put us in a very poor light with the PPB. 25X1

3) [] does not appear to be moving very rapidly on this problem and is sitting on the fence trying to keep his own skirts as clean as possible. It is felt that a strong determined effort must be made in order to get him away from this dead center position and get things moving. The restoration problem still exists and we feel that the project is vital and necessary. It is hoped that the front office will do their best to alleviate this lack of funds situation presently affecting the Analog/Digital Image Restoration Contracts. 25X1
